

The graph displays the performance of seven classes (Class 0 to Class 6) across a range of values from 0.0 to 1.0. The y-axis represents a performance metric, likely accuracy, ranging from 0.0 to 1.0. The x-axis represents a parameter, also ranging from 0.0 to 1.0. All classes show a sharp increase in performance as the parameter increases from 0.0, reaching a plateau near 1.0. Class 6 (magenta) shows the highest performance, while Class 2 (green) shows the lowest performance.

Class	Color	Approximate Performance at x=0.0	Approximate Performance at x=0.2	Approximate Performance at x=0.4	Approximate Performance at x=0.6	Approximate Performance at x=0.8	Approximate Performance at x=1.0
